

Our group SOLINA (1500 Employees, € 405M turnover, 15 production sites in Europe and locations in 17 countries) imagines, conceives and develops ingredient solutions for food industries. Our vision: « Create Solutions for Tomorrow's Food ».

For the Netherlands (200 employees, 2 plants) we are currently recruiting a

Quality Manager M/F

Job based in the Netherlands: Rotterdam / Nieuw Vennepe

The Quality Manager is responsible for the performance of the quality system in The Netherlands (2 production sites: Rotterdam – dry mix, Nieuw Vennepe – sauces), including the maintenance and further development of the quality system.

The job incumbent is reporting hierarchically to the Country Manager of Solina Netherlands and functionally to the Group QA Manager.

She/he leads the NL Quality Team: Quality Control Nieuw Vennepe (4), Quality Control Rotterdam (2) and Quality Assurance (7).

GENERAL RESPONSIBILITIES & TASKS

- Ensure the strict compliance and feasibility of Quality procedures, work instructions, documents and QA related matters.
- Increase the quality awareness throughout the whole organisation.
- Lead internal audits and ensure the implementation of corrective and preventive actions.
- Responsible for client- and certification-audits; the Quality Manager will also perform supplier audits in order to ensure that our suppliers meet our quality standards.
- Handle questions and complaints of clients (e.g. food inspection, law, technical documents) and suppliers, investigate and take an analytical approach on the business to determine the causes and to propose improvement processes.
- Ensure the maintenance and development of our current QA certifications necessary for referencing our company to its customers.
- Follow the regulations relating to the technical product specification and service documentation (raw material replacement, change formulas, data sheets, regulatory monitoring).
- Development of the Quality function in general and the Quality team members through training, coaching, assignments, instructions, projects, etc.
- Actively involved in transversal group projects for SOLINA.

SKILLS, CAPABILITIES, REQUIREMENTS & KNOWLEDGE

In order to be successful in this role, you bring:

- Education: Academic or Higher Vocational education in a technical discipline (f.e. food technology, Bio-Engineer, Industrial Engineer)
- At least 8-10 years of experience in QA Management preferably in the food business
- Entrepreneurial spirit, hands-on, action oriented and flexible approach, strong analytical skills, good communicator at all organizational levels, people manager, teamplayer, pro-active, results oriented.
- Knowledge and experience of FSCC22000, HACCP, BRC, IFS is a must.
- Fluent Dutch and English is essential, French is a plus.

- Knowledge of and experience with Continuous improvement, Health & Safety and/or Environment is a big plus in this role.
- Travelling in the Country is essential for your job.
