

Lab Technician Extrusion (reference OP)

Eke Permanent contract

Being part of our strategic 'Future Food' project and its related quest for 'non meat' substrates, you'll be reporting hierarchically to the Group R&D Director.

Objectives

In your role as Lab Technician Extrusion, you are responsible for:

1. Organising, preparing and carrying out tests and trials provided by RD&A colleagues as well as trainings and demonstrations for customers and colleagues.
2. Maintaining the extrusion pilot fully operational and clean according to quality and safety standards.

Responsibilities

Pilot organisation

- Responsible for the cleaning and (first level) maintenance of the pilot and pilot equipment.
- Contribute to the development of the pilot plant (equipment, follow up on the maintenance, calibrate the equipment, procedures...).
- Lead appointed pilot projects.
- Assure the good follow up of raw material stock for the pilot. Order raw materials in accordance with the internal procedures.

Organize application lab activities: trials, demonstrations and trainings

- Responsible for the planning of the pilot activities.
- Responsible for preparing the machines and equipment: mechanical and electrical assembly, calibration of pumps and dosers...
- Carrying out the tests: preparing & loading raw materials, operate the pilot equipment...
- Responsible for the reporting of the test results and forward it to the applicant.
- Responsible for pilot organization and execution of (customer) seminars, product/application demonstrations and training sessions.
- You prepare the samples to be sent to the customers.

Assure that the tests and presentations are organized conform the quality standards needed for the industry.

Profile / Competences

- Bachelor Bio-technology or food technology.
- Strong communication skills, technically oriented, problem solver and result driven.
- You have a flexible attitude, can deal with stress and are committed to a long-term job.
- You like to work in a dynamic company that places value on autonomy and self-development.
- Fluent in English is essential.
